London/ UK

## SUMMARY

As a junior front-end software developer, I am eager to learn and develop my skills. I am a quick learner and always willing to take on new challenges. My core front-end skills include HTML, CSS, Tailwind, TypeScript, and ReactJS. I am currently looking for an opportunity to work as a junior front-end software developer in London or remotely. My salary expectation is £ 25,000 - £ 28,000 /year.

## EXPERIENCE

My experience is based on personal projects that I have been developing through my studies. Despite not having work experience, I feel ready to be part of a team where I can help with solutions, suggest new ideas, and learn new features.

Some of my personal projects:

- **WEATHER FORECAST APP.** A responsive web application in which allows users to access current and future weather information for a selected location. User-friendly interface with image elements to make it easy to understand the weather forecast. Built using Vite, TypeScript, ReactJS, Styled Components, and React Select.
- **FOOD RECIPES.** Allows users to search for, view, and save recipes. The application includes a database of recipes that can be searched by ingredients, meal type, dietary restrictions, and other parameters. Users can add missing ingredients to a grocery lists. Built using Vite, TypeScript, ReactJS, React Select, Tailwind, and React Router.
- **PORTFOLIO:** This web application is a modern, responsive and visually appealing website to showcase my front-end skills. The website is built using a range of powerful tools and technologies, including Webpack, React, TypeScript, Styled-Components, and GSAP.

## Development Skills

HTML5, CSS3, JavaScript, TypeScript, React JS, Styled-Components, TailwindCSS, React Router, Hooks, GSAP.

## Tools & Technologies

Figma, VSCode, Github, Trello.
